

Skilled Nursing Facilities

San Luis Obispo and Santa Barbara Counties

Selecting a nursing home is an important decision that merits careful consideration and study. Often, time is limited, so it is important to identify resources to assist you in your decision-making.

When should you choose Skilled Nursing?

Skilled nursing is only one of a range of services that may meet the needs of chronically ill or disabled persons. When an individual needs 24-hour nursing care and supervision, a skilled nursing facility may be the best option. Although they become a permanent home for many, they are often a temporary or short-term option for some. When a less intensive and less restrictive form of care is called for, a mix of services may be most appropriate. Options include Home Health Care and other in-home services, Residential Care Homes, and Hospice Care.

What is a Skilled Nursing Facility?

A skilled nursing facility is a residence that provides room, meals, recreational activities, help with daily living, and protective supervision to residents. Services include: medical, dietary, pharmacy and social services, plus rehabilitation, occupational and physical therapy and speech language pathology. Generally, residents of nursing facilities have physical or mental impairments, which keep them from living independently. Skilled nursing facilities are certified to provide different levels of care, from custodial to skilled nursing (services that can only be administered by a trained professional).

What services are provided?

Nursing facilities provide services which include: rehabilitation for strengthening balance, coordination, gait, positioning; cognitive skills; physical, occupational and speech therapy. Additional services may include: audiology, respiratory, enteral, intravenous and decubitus therapies; Alzheimer's/ dementia care; respite care. Skilled nursing facilities have single bedrooms and shared rooms with two to four residents.

Admission Contracts

California law mandates that every facility use a standard admission agreement that complies with all state and federal laws, and it is mandatory that each agreement include a comprehensive *Patient's Bill of Rights*. In addition, complete blank copies must be made available to the public. Every contract must clearly state what services and supplies are covered by the facility's basic daily rate. Optional services and charges must be listed as well as a statement that a resident will receive an

itemized monthly statement. There are numerous Medicare and Medi-Cal regulations that facilities must follow, for more information contact the Long Term Ombudsman's office or Senior Connection.

General Policies & Procedures

Each facility has its own policies and procedures. Ask for a copy. Some specific policies to consider: use of personal possessions, special diets, room assignments and charges, reserving a bed if a resident is transferred to hospital, visiting hours, self-care, phone calls and access to personal funds.

How do you pay for Skilled Nursing?

Skilled nursing facilities accept payment from many sources. Many people begin by paying for nursing care through their personal resources. Some have long term insurance, and under certain limited circumstances, others can receive Medicare assistance. For most people, it is necessary to find payment through public sources like Medi-Cal.

How can you check on quality?

Skilled nursing facilities can elect to accept Medicare and Medi-Cal payment. All nursing facilities that are certified to participate in Medicare or Medi-Cal are visited by a team of trained state surveyors at least once a year. These surveyors examine the facility in regard to many areas – including quality of life and quality of care measures. Skilled nursing facilities are required to post their most recent reports in a conspicuous location in the facility. Results are also available online at www.medicare.gov

Reports are also available from the Long Term Care Ombudsman Program at (805) 922-1236 for Santa Barbara Co and (805) 785-0132 for SLO Co. Prior to making a final decision, it is suggested you contact them. *A Guide to Choosing a Nursing Home* can be ordered by calling 1-800-MEDICARE or by contacting your nearest HICAP office at 1-800-434-0222.

Senior Connection
1-800-510-2020

Senior Connection is a program of the Central Coast Commission for Senior Citizens and is funded by the Older Americans Act.

Key

Facility Info

Capacity- Number of beds that the facility is licensed to carry

Info Updated- Date information was last updated by the facility
